REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims are allowable over Carey et al. (US 6835475). Carey et al. fails to teach or suggest a recording medium or method of making a recording medium having the hcp magnetic layer with <0002> out-of-plane growth as required by claims 1, 32, and all claims depending thereon. The reference also fails to teach a recording medium or method of making a recording medium, as set forth in claims 6, 29 and all claims depending therefrom, wherein the second crystalline interlayer has adjacent grains that are physically separated. Instead, the reference teaches grains that are directly bordering one another with no separation in between. The prior art fails to suggest motivation to separate the grains of this interlayer structure.

The examiner notes that method claims 21-22 and 26-27 have been rejoined and are allowed for the foregoing reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Holly Rickman whose telephone number is (571) 272-1514. The examiner can normally be reached on Monday-Friday 9:30-6:00.
